T4-E / THE TIMELESS LIGHTING MAST

T4-E

Firmly focused on the future, the **T4-E** is above all **more sustainable in its design and applications**.

- > design of a **new-generation 140Wh battery** with an integrated charger, **UN38.3 certified** (ongoing), including **re-conditioned li-ion cells in two independent internal modules**.
- > improved cell characterisation and traceability, as well as additional features to increase the life and reparability of the battery module.
- > **100% compatibility with previous generations of T4** to fight product obsolescence and retain the ability to add to existing T4 rental fleets.
- > a new option **compatible with LumenRadio®** products, standard in the lighting industry.

A successful DNA that remains :

- **indoor & outdoor** applications
- set-up in **30 seconds**
- **DMX-RF system integrated** into the mast
- CCT, RGB or fixed white with a **CRI > 90**
- **up to 110h of autonomy**, freeing you from the installation problems associated with cables
- **4 possible heights** with its two additional extensions
- **compact packaging**, including up to 3 masts

An asset for lighting your finest events, thanks to its minimalist and timeless design.

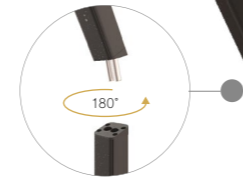

360° rotation
Individually adjustable
4.5W Power

CRMX
by LumenRadio

NEW
FEATURE
2025 !

LumenRadio *Option*
Remote control now
compatible with CRMX
protocol

*Straight or
Inclined head*
allowed by the
wireless Hermatwist®
assembly system

Integrated Li-Ion battery
2 x 70W
Reconditioned Li-Ion cells
Samsung 21700

NEW
FEATURE
2025 !

AN IDENTIFIABLE CASE

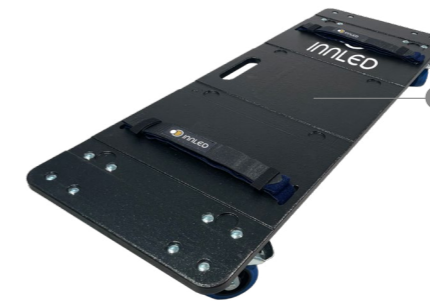

Up to 3 masts
in one case

New
graphics

Green
fasteners

Slots for 3 power
supply units

Up to 4 cases stacked on a
wheeled stack

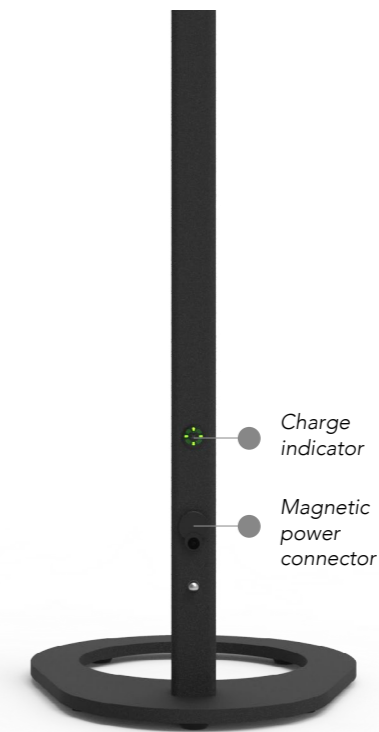

(EU pallet compatible)

RESPONSIBLE DNA FOR THE NEW BATTERY

NEW FEATURE 2025 !

The new-generation battery now includes reconditioned lithium-ion cells sourced in France. These cells offer 70% fewer CO2 emissions, significantly reducing the product's carbon footprint

- > Compatible all modes of transport (UN38.3 ongoing)
- > Integrated charger
- > Integrated accelerometer
- > Improved stability with a lower centre of gravity
- > Magnetic power connector
- > **18-month warranty** in normal use

Charge
indicator

Magnetic
power
connector

- 1 Event & temporary applications
- 2 Ecodesign & circular economy
- 3 Autonomous & remote controllable
- 4 CCT RGB Fixed white
